

## Notification of Specification Change

This is a short note to let you know the following specification change to meet RoHS Directives of March 31, 2004 as well as to eliminate hazardous material, hexavalent chromium (Cr<sup>6+</sup>).

### Outline

Hexavalent chromium has been using in a chromium plating on many accessories, brackets & switch case covers. **Hexavalent chromium(Cr<sup>6+</sup>)** will be soon replaced by **trivalent chromium(Cr<sup>3+</sup>)**. The current plating is yellowish finish, but after the replacement, it will be bright finish.

### Switches

All chromium plating parts such as case covers, mounting frames, stopper plates, etc.
